(pictured below)

**TeleScript AV** is the latest lightweight software solution from the industry innovators, Telescript. Designed for single-script at-a-time prompting situations. TeleScriptAV provides a low-cost alternative for users who demand ease of use, the feature set of a professional package, and the ability to scale as your needs grow. Features include Rich Text editing, full-screen prompting with variable smooth scrolling, bookmarking, spell checking, memory markers, zoom capability - plus seamless integration with the full TeleScript family of software and plug-ins. And for the international users of Windows NT, 2000, and XP is the most scaleable feature of TeleScriptAV - full Unicode compliance supports scripts in all world languages, plus the ability to localise the software so menus, dialogs, and help is displayed in the correct language. And with no proprietary hardware required, TeleScriptAV provides a truly open path to migrate as technologies develop. What is the future of prompting?  
**TeleScript AV.**

**'Get it right first time'**
